RIVA DEL MURETTO

Designed with traditional stone details, Riva del Muretto, located only 50 meters from the sea in the centre of Novigrad, offers unforgettable view of the Novigrad town walls.

Urban house Riva del Muretto is a typical Istrian structure erected in the 18th century. It is located in the very centre of Novigrad: 50 meters from the main town square, the church and the town hall, and only a few steps from the seafront. This traditional building of 100 m2 was completely renovated in 2000. It offers a comfortable accommodation for 4 people on 3 floors linked by the spiral staircase. The house has its own parking place for 1 vehicle, satellite television and a safe. It is air-conditioned. There is a toilet on the ground floor.

The kitchen, fully equipped and accessorized, including a dish washer, is located on the ground floor. The 6 person dining table is part of the kitchen. There are two bedrooms with double beds and a bathroom with a shower on the first floor. The space is decorated by a combination of traditional, stone details and modern elements. On the second floor there is a living room with a fireplace as well as a kitchenette equipped with basic appliances, cutlery and a fridge. A spare bed for one can be set up in the living room. The balcony offers a magnificent view of the sea to enjoy while relaxing on wooden loungers. The beach is only 50 meters away. The developed town beach is 200 meters to the left and right of the Torci House.
